## >> **A Word on Glyconutrients**

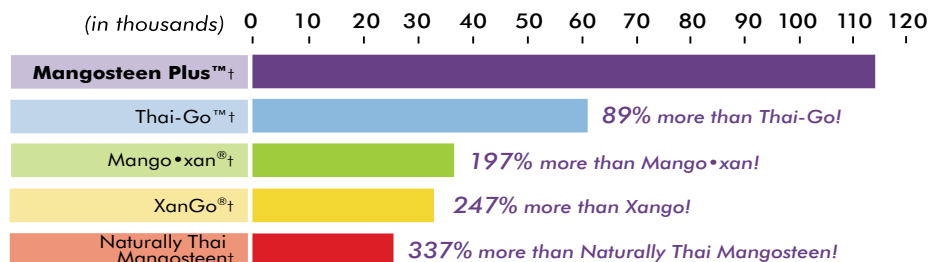

Your 300 million daily new cells will feast on this! Vemma is expanding your families' nutritional wellness by now enhancing the Vemma formula with stabilized organic glyconutrient-rich aloe vera in Mangosteen Plus. Recently discovered by glycobiology researchers, glyconutrients are natural dietary sugars found in aloe vera. When properly stabilized and extracted, they work naturally to help the body perform many necessary functions including healthy cellular communication as well as support for the body's defense mechanisms.\* This is yet another extraordinary reason why Vemma is the most complete, powerful and best tasting nutrition program available anywhere. The best keeps getting better!
